

Volunteer Opportunities during Whatcom Water Weeks

Coordinating a two week celebration like Whatcom Water Weeks takes a lot of work! There are several opportunities available for anyone who would like to help.

Wayne the Water Drop and Handlers – We need volunteers to wear the Wayne Water Drop costume and help promote Water Weeks at public events, and during Water Weeks make appearances at hosted events. This is a two person job, so if you aren't up for taking on a new identity as a water drop, you can help by escorting Wayne Drop at different events.

Social Media – We need a social media whiz to help keep our Facebook page current leading up to and during Water Weeks.

Photography – We would love to have a hobby or professional photographer volunteer to help us capture some of the events that happen around Whatcom County during Water Weeks.

Coordinate with Hosts for Event Surveys – This volunteer opportunity involves attending events and conducting very brief survey of people attending the event and counting the number of participants. Information gathered will help us evaluate Whatcom Water Weeks.

Graphic Design - Have artistic or graphic design skills? We can use a volunteer that can help prepare posters, signs, advertisements, and other materials that can be used before and during Water Weeks.
